SUMMARY

Senior Enterprise Integration Engineer with **8+ years of experience** building **enterprise applications, scalable backend systems, and business-critical integrations**. Skilled in developing **secure APIs, authentication systems, workflow automation, and high-performance applications** using **React, Next.js, Python(FastAPI/Django) ,Java, Node ,PHP and TypeScript**. Delivered production platforms supporting **4,000+ users**, reducing operational workload by **70%** and improving performance by **40%**.

EXPERIENCE

Full Stack Developer

05/2022 – 03/2026

Manulife IT Delivery Center Asia

- Built an **enterprise compliance platform** using **React, Next.js, TypeScript, and Python FastAPI. PHP**
- Developed **scalable REST APIs**, backend services, and secure application workflows.
- Implemented **authentication and authorization** for enterprise application access.
- Integrated internal and external services through **API-based integrations**.
- Automated business workflows, reducing QA workload by **70%**.
- Improved application performance by optimizing SSR, increasing Lighthouse score from **72 to 94**.

Stack: React • Next.js • TypeScript • Python • FastAPI • PostgreSQL • REST APIs • Docker • AWS

Full Stack Developer

11/2020 – 04/2022

Everise

- Developed **enterprise web applications** using **React, Next.js, Java .**
- Built backend services and **REST API integrations** supporting business workflows.
- Integrated multiple systems into unified application services.
- Automated customer workflows handling **1,500+ monthly requests**.
- Improved API performance by **35%** through async processing and database optimization.
- Reduced page load time from **3.4s to 1.9s** through SSR and frontend optimization.

Stack: React • Next.js • Python • PHP • Java • Django • PostgreSQL • REST APIs • Docker

Full Stack Developer

09/2017 – 05/2020

Toshiba

- Built a **real-time monitoring platform** supporting **4,000+ concurrent users**.
- Developed frontend dashboards and backend APIs for operational systems.
- Improved responsiveness by **40%** through real-time processing and caching.
- Optimized API performance, reducing redundant database operations by **35%**.

EDUCATION

Computer Science Bachelor's Degree

06/2013 – 03/2017

College of Innovation and Integrated Technology

SKILLS

Enterprise Integration

API Integrations • REST APIs • Authentication • Authorization • Workflow Automation • Secure Application Design

Backend

Python • FastAPI • Django • PHP • Node • Java • Go • Microservices • Async Programming

Databases

PostgreSQL, MongoDB, Redis

Frontend

React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, SSR/CSR, WebSockets, Responsive UI, Vue

Cloud & DevOps

AWS • GCP • Docker • CI/CD • Git

AI & Automation

LLM Integration • OpenAI API • Anthropic API • RAG Pipelines
